

Hiking Trails

KADISHI-TUFA TRAIL:

This trail takes about an hour to complete and is fairly easy. It runs along the Kadishi River, which is a tributary of the Blyde River. It incorporates a lovely Tufa waterfall which is a rare phenomenon involving the building up of the rock behind the waterfall as a result of calcium carbonate precipitation. It is marked by red foot-prints.

GUINEA-FOWL TRAIL:

The trail takes just over 3 hours to complete and requires a reasonable level of fitness. This scenically diverse trail offers beautiful views of the canyon's features before descending into the lush vegetation of the Kadishi River valley. A lovely swimming spot and a small Tufa waterfall are encountered at the point where the trail crosses the Kadishi River. It is marked by blue Guinea-fowl birds.

LOURIE TRAIL:

This trail takes about 3 hours to complete and requires fitness as well as agility - please do not attempt this trail after rain, it is far too steep and slippery!!! The river is crossed several times so be prepared to get your feet wet! Walking through the indigenous riparian forest makes one feel as though you have stepped into another world. It is marked by red blocks.

B2

LEOPARD TRAIL:

The trail takes around 4 hours to complete and requires you to be fit. It offers spectacular views of the northern section of the Blyde River Canyon, Blyde Dam, Three Rondavels, Mariepskop and other features of the Canyon. A variety of biomes with their specific vegetation types are encountered on this trail. Although leopards are seldom actually encountered due to their shy and nocturnal habits, their spoor is often seen. It is marked by yellow leopard paw-prints.
